Press Note.

HEALTH OF LIVESTOCK IN MYSORE STATE DURING JULY 1953.

During July 1953, altogether 271 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 216 villages during the previous month. The number of outbreaks was highest in Shimoga, Bangalore and Mysore Districts, while Chitaldrug, Chikmagalur and Mandya Districts were least affected. These diseases accounted for 1,752 attacks, of which 1,103 succumbed. The departmental staff conducted 34,973 preventive inoculations and vaccinations against all the above diseases. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Diseases caused by internal parasites were reported from 238 villages accounting for 223 deaths, as against 149 villages accounting for 120 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 18,693 animals, as against 9,477 animals during the previous month.

Fodder and water were generally available throughout the State.
